## Résumé

As a lead developer with a background in and a strong background in DevOps, I have a unique skill set that allows me to bridge the gap between development and operations.

I have a proven track record in building and developing web applications using Vue.js and implementing CI/CD pipelines to streamline release processes.

My expertise in tools such as Docker and allows me to automate infrastructure and ensure that are scalable and reliable.

I am highly qualified to collaborate with teams and lead development projects from ideation to delivery.
